STANDARD MEASURING TAPE

FRIEND/PARTNER TO HELP YOU

FOLLOW OUR SIMPLE STEPS

FRONT LENGTH

INCHES

Measure from the shoulder seam (close to collar) down to your desired length.

FRONT ARMPIT TO ARMPIT

INCHES

Measure from one armpit, across your chest, to the other armpit.

BACK ARMPIT TO ARMPIT

INCHES

Measure from one armpit, across your back, to the other armpit.

NECK

INCHES

Measure around your neck right below the Adam's apple / voice box. Provide some extra space to ensure a comfortable fit.

CHEST

INCHES

Pass the measuring tape directly through the armpit and across the fullest part of your chest while keeping it at the same level on the back.

STOMACH

INCHES

Take the measurement at the level of your navel. Stand in a relaxed upright position and breathe out while measuring.

HIP

INCHES

Measure around the widest part of the hip. Do not forget to empty your trouser's pockets before taking this measurement.

SHOULDER

INCHES

Measure from one end of the shoulder to the other end. The measuring tape should be held horizontally and follow the shoulder contour.

SLEEVES

LEFT INCHES RIGHT INCHES

Measure exactly the starting point where the shoulder width was measured before. Straighten your arm. The measuring tape should end at the base of the thumb.

BICEP

INCHES

Measure the bicep at its widest part. Usually this is exactly the middle of the upper arm. Relax your bicep when taking this measurement.
